

PRODUCT OF THE MONTH

Palletization Module for AccuZIP6

AccuZIP6 5.0 with Palletization gives mailers an affordable and indispensable tool. Add this powerful presorting capability to your existing AccuZIP6 5.0 product and begin taking advantage of the deep postal discounts and expedited mail delivery that will result.

Preparing mail on pallets optimizes delivery speed, labor and logistics. Doing so helps businesses achieve quicker collections, higher response rates, greater customer satisfaction and better coordination of multi-channel communication efforts. The result: More measurable results and actionable data that positively impact ROI.

The USPS rules associated with palletization can be complex and unforgiving. AccuZIP knows this as well as anyone. Our palletization technology allows you to **now** that your mail preparation is **100% USPS compliant** and focus resources on other parts of your operation.

AccuZIP6 5.0 with Palletization facilitates the printing of pallet placards that contain the Intelligent Mail Container Barcodes (IMCb) to ensure your mail is easily identified and accepted at any USPS entry facility across the country.

AccuZIP6 5.0 with Palletization includes "options" for both packages and containers on pallets. It supports all classes of mail presented to the USPS including: Standard Mail, Periodicals and Package Services (including Bound Printed Matter flats and parcels)! It does not matter if your operation needs a partial or complete palletization suite. AccuZIP6 5.0 with Palletization assures that your mail will always be perfectly prepared. The built in "pallet-leveling" intelligence automatically directs pallets to the destinations defined in your business' logistics plans to minimize transportation costs and manual processes.

No matter how your mail-pieces are gathered for pallet-based shipments, AccuZIP6 5.0 with Palletization can handle the work with ease. This solution provides mailers container **and** package based functionality, integrated drop ship capability and facilitates printing of individual 8125 forms. These features save mailers a great deal of time and money by streamlining and optimizing their front office, logistics planning and mail preparation areas.

When issues do arise, our outstanding Technical Support Staff is there for you. Your subscription includes unlimited training and support and all software updates and upgrades to keep your operation current on all changes that may affect timely acceptance or delivery of your mail.

Working with AccuZIP gets you more than postal compliance. We are interested in making you successful! Your **trust** is the cornerstone of our partnership and something we work hard to earn every day
